## AEI TAGS

Automatic equipment identification (AEI) is an electronic recognition system in use with the North American railroad industry.

Consisting of passive tags mounted on each side of rolling stock and active trackside readers, AEI uses RF technology to identify railroad equipment while en route.

INPS has the ability to reprogram AEI tags onsite as part of our Railcar remarking program.

We also stock new used inventory and can ship in most cases, same day.

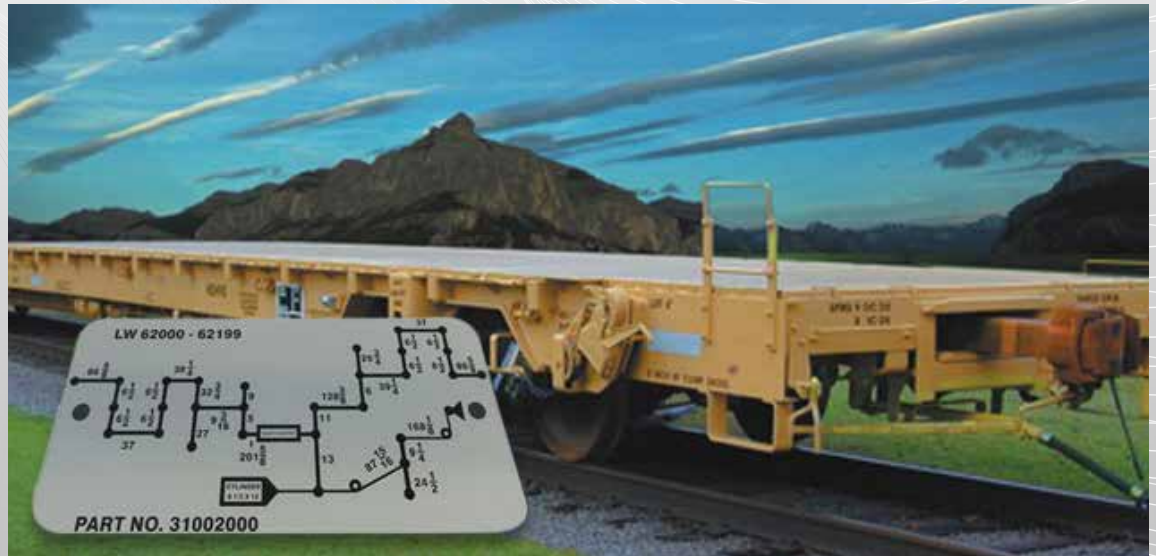

**INTERNATIONAL**

## PLACARDS

DOT requires placards to identify hazardous materials.

These signs are available in Pressure Sensitive Vinyl or Rigid Plastic.

Placards measure 10 <sup>3</sup>/<sub>4</sub>" x 10 <sup>3</sup>/<sub>4</sub>".

Many different messages and styles are available.

4-Digit Placards are for vehicles dedicated to repeat transport of a single material.

## **RAILCAR REMARKING**

INPS is your one stop shop for railcar remarking.

From Graphics to programmed AEI tags, paint stencils, and onsite installation – INPS can do it all, Fast!

We can also manage your large scale remarking programs.

By tracking and tracing cars, dealing with storage facilities, Leasee's, repair shops, and loading facilities, leave the headaches to us, we will get the job done.

## **REFLECTIVE TAPE**

**FRA - REFLECTORIZATION - RETRO  
REFLECTIVE TAPE - ALUMINUM BACKED  
REFLECTORS - REFLECTOR KITS**

FRA has published the final rule for Reflectorization of Rail Freight Rolling Stock, 49 CFR Part 224. The purpose of the rule is to require the application of retro reflective tape to the sides of freight cars and locomotives enhancing the visibility of trains during times of limited visibility.

## REFLECTIVE TAPE

When it comes to reflectorization, would you prefer to work with a company that is only offering one solution; or would you rather have the solution that best suits your needs? We offer more than one type of retro reflective material and in different formats, for your convenience. You can have it all with INPS. Our reflectors are offered to you in uncut rolls, kiss cut rolls, reflector kits and aluminum backed reflectors. We can quickly drop ship to multiple locations from one of our facilities in USA, Canada and Mexico.
